

Dem Demetriou

Summary

Dem provides independent management and consultancy services, throughout the energy industry supply chain. He has over 30 years' experience in the oil and gas business working on both on and offshore developments, and with over 15 years in corporate and senior project roles. He has worked for operators, front-end/design consultants and the first EPCI contractors.

He has successfully built teams for new office start-ups and enhanced the competences and capabilities of existing engineering delivery teams, in both large organisations, and boutique consultants.

Career Highlights

Dem's previous roles include Engineering Manager for Genesis Oil & Gas Subsea Business Unit and senior project positions within BG Group and other Operators.

He covers all aspects of a development from bids & proposals, feasibility studies to execution, and his experience includes both office and site-based, offshore and office-based assignments in the UK and overseas (Europe, Egypt, Houston, and Trinidad).
